

Locomotive Mechanical Training 2010 Schedule

Course Acronym	Course Code	Class Title	Description	StartDate	End Date	Fast Track
		Locomotive Mechanical Training				3/1/2010 - 3/26/2010
		Locomotive Mechanical Training				9/20/2010 - 10/15/2010
RRTM136		GE Locomotive Mechanical, Basic	This is the second in a series of four courses in Locomotive Mechanics. This course is designed to introduce the student to the basic operation, maintenance, repair requirements and trouble shooting for GE diesel engines and support systems.			
RRTM135		EMD Locomotive Mechanical, Basic	This is the first in a series of four courses in Locomotive Mechanics. This course is designed to introduce the student to the basic operation, maintenance, repair requirements and trouble shooting for EMD diesel engines and support systems.			
RRTM137		Locomotive Airbrake, Basic	This course is the third in a series of four courses in Locomotive Mechanics. It is designed to provide the student an introduction to the operation, testing, maintenance, and troubleshooting for 26L and 30 ACDW locomotive air brake systems. This course also emphasizes FRA air brake requirements applicable to locomotives.			
RRTM138		Locomotive FRA Regulations	This course is the fourth in a series of four courses in Locomotive Mechanics. This course is designed to introduce the student to the Federal Railway Administration and Department of Transportation Code of Federal Regulations Title 49, Parts 209, 218, 229, 231, and 232.
